

**The safety of our customers and our staff is very important to everyone at Milaeger's.** According to our state senator, our stores and services fall under essential businesses, primarily because of our involvement in agriculture, but also because we fit in other categories, as well. These are the steps we are taking to ensure your safety and comfort:

**We are OPEN!** Our hours are 9:00am- 6:00pm, everyday.

**We are engaged in agriculture and qualify as an essential business.** We produce food for immediate consumption, as well as vegetables, fruits, and herbs for consumers to grow in their gardens.

**We support local food growers.** Our farmers market is open and our vendors are continuing to provide their products for you.

**We are continually addressing keeping a safe, clean environment.** We are wiping down surfaces and offering free disposable gloves while you shop. You don't need to touch our doors to enter, and no one but you touches your credit card.

**We are practicing social distancing in our stores and advise our customers to keep a 6' distance between themselves and our staff.**

**We have acres of greenhouses at our Racine growing location for you to enjoy a walk through.** Pansies and other spring flowers are blooming beauties right now! It feels so good to be in our greenhouses. Our greenhouses are spacious, well ventilated, and provide abundant, healthy sunshine.

**We offer curbside pickup.** Let's talk! Give us a call, and we can fill your needs and help you with your selections. We can talk plants, puzzles, patio sets, and more! Call Racine (262)639-2040 or Sturtevant (262)886-2117.

**We can deliver!** Whatever you need, we can bring it to your door! Luckily, you can talk to a real person at Milaeger's who can help you with your needs.

**Classes and workshops will happen but on an individual or small group basis.** Instead of our normal designated times, you may register for a specific time to make your project. Also, if you prefer, we will plant your basket or container for you according to your plant preferences. Also, if necessary, we will allow you to plant your workshop project at a later date.
